Josh-

The way GSA approached delegations these days has changed. Attached is a Delegation Guide for Repairs and Alterations. GSA will grant delegations but for a specific project (i.e. defined scope). Can we define a scope for Terry L. that is broad enough to allow him to accomplish some alteration project(s). Meaning, do you know what FERC wants to do upfront/presently?

See attached.

Josh-

COR designation for what actions? It might be myself but I want to be sure.

Mark,

Who is the appropriate person to request COR designation for the current lease at 888? In the past it has been Daryl Jackson.
